SUMMARY AND RECOMMENDATION FOR THE COMMITTEE

13 December 1957

SUGGESTION NO. 2878: dated 4 March 1957

STATINTL

[REDACTED] S-5), GP-\$2.14 p.h., Warehouseman
Office of Logistics, DD/S

A. Summary of Suggestion

Suggester proposes a gauge for making two cuts on a 2"x4" with only once handling the piece of lumber.

B. Summary of Evaluation

On 27 March 1957, the Office of Logistics made the following statement:

"In brief, this suggestion is a modification of a previous suggestion, Number 1621, relative to expediting the construction of pallets and box pallets in which one step in the preparation of the lumber is eliminated.

"It is estimated that the implementation of this suggestion will result in a savings of \$80.00 annually in addition to the savings of \$250.00 estimated in the evaluation of suggestion No. 1621.

"Since this suggestion is simply a refinement of a previous suggestion, this office recommends a letter of commendation to the employee or the minimum monetary award."

C. Suggestion Awards Staff Note

Suggestion No. 1621 proposed a box to be used as a guide for cutting lumber for which the suggester received \$15.00 in June 1956.

D. Line of Duty Status

Not in line-of-duty. (As a Warehouseman he is not expected to design such gauges.)

E. Executive Secretary's Recommendation

1. Acknowledge adoption of suggestion.
2. Award of \$10.00 for tangible savings of \$80.00 annually.

3. Refer suggestion to Public Building Service of GSA, to determine possible extended application in the government.
